

Earth Week 2019

Protect Our Species

April 22nd - April 27th

A Celebration of Our Earth- "Protect Our Species!"

The ECO team has designed many amazing events that our Eagles will be engaged in during Earth Week this week. The focus of Earth Week this year, is the protection of our species. Since we will be planting a butterfly garden next month the team has chosen to focus our attention on our pollinating species. Here are the events planned:

April 23rd- The Campaign Crew is presenting information about pollinators to all classes

April 24th- Yard clean up in the afternoon and wear blue and green today

April 25th- Classes are working on the exploration of a chosen pollinator for our community mural.

- The Butterfly Conservatory is presenting information about the monarch butterfly to all grade fours and the entire ECO Team.

April 26th- "Power Hour" where all classes are encouraged to shut down all energy related activities for an hour.

We continue to encourage you to send all plastic bags that are no longer needed to school for our Plastic Grab Bag Campaign. Friday is the last day for collection.

Stay Green! ~ECO Team
